LED CUBE

ISTRUZIONI DI INSTALLAZIONE / INSTALLATION INSTRUCTIONS

Classe I

Isolamento elettrico
Protection class

RAEE: Ecolight

QUESTO APPARECCHIO E'
FORNITO CON UNA SORGENTE
LUMINOSA DI CLASSE
ENERGETICA "D"

THIS APPLIANCE IS SUPPLIED
WITH A LIGHT SOURCE OF
ENERGY CLASS "D"

ATTENZIONE!
WARNING!

- Scollegare l'alimentazione elettrica dal quadro elettrico generale durante le operazioni di manutenzione o installazione. Per motivi di sicurezza si consiglia di non utilizzare interruttori normali per sezionare la linea elettrica.
- Utilizzare guanti protettivi durante le operazioni di installazione o manutenzione.
- Tutte le procedure di manutenzione e installazione devono essere eseguite esclusivamente da personale qualificato.
- Atena Lux non si assume alcuna responsabilità per danni causati da prodotti modificati da terze parti o installati erroneamente.
- Non collocare materiale isolante sopra l'apparecchio
- Non gettare l'apparecchio o le sue parti come rifiuti domestici, ma effettuare il corretto riciclaggio secondo le norme del paese di destinazione del prodotto. NON COLPIRE L'APPARECCHIO.

- Turn off the power supply from the general electrical board during maintenance or installation operations. For safety reasons we recommend not to use normal switches for sectioning the electrical line.
- Use protective gloves during installation or maintenance operations.
- All maintenance and installation procedures must be performed by qualified personnel only.
- Atena Lux do not bear any responsibility for damages caused by products modified by third parties or installed wrongly.
- Do not place insulation material over the luminaire
- Do not dispose the luminaire or its parts as household waste, but make the proper recycling according to the regulations of the country of destination of the product.
- DON'T HIT THE LUMINAIRE.

INSTALLAZIONE

1. Disimballare la plafoniera.

INSTALLATION

1. Unpack the fitting.

2. Disconnettere l'alimentazione elettrica dell'impianto generale. Assicurarsi che l'apparecchio sia sempre scollegato dall'alimentazione prima dell'installazione o della manutenzione. Non utilizzare l'apparecchio se esso stesso o se il cavo di alimentazione risultano danneggiati.

2. Disconnect the electrical feeding from the general electrical board. Make sure that the luminaire is always disconnected from the power supply before installation / maintenance work. Do not use the luminaire if damaged or if damaged the power cable.

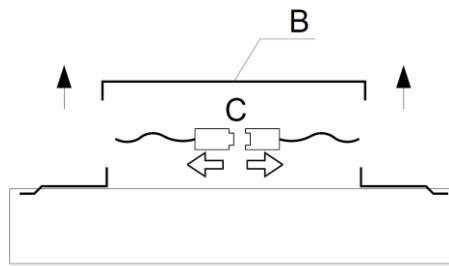

3. Rimuovere le viti (A) delle staffe laterali, come mostrato in figura.

3. Remove side screws (A), as shown in the picture.

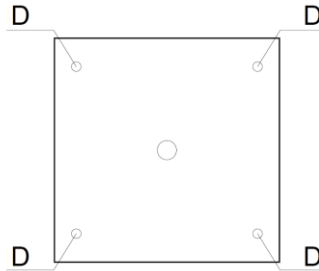

4. Sollevare il coperchio (B), scollegare i connettori (C).

4. Lift the cover (B), disconnecting the connectors (C).

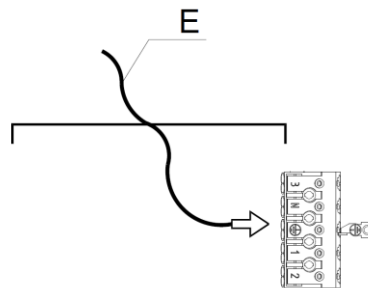

5. Predisporre a soffitto nelle posizioni indicate (D) n° 4/8 tasselli, adeguati al tipo di soffitto e a sostenere il peso del corpo illuminante e realizzare il foro centrale per il passaggio del cavo di alimentazione.
Per la versione 1170x1170, installare il corpo illuminante orientando le staffe in verticale.

5. *Dispose n° 4/8 dowels directly on the ceiling (in the indicated position D). Dowels must be, suitable for the type of ceiling and for support lighting fitting weight, and make the central hole for the passage of the power cable. In the 1170x1170 version, install the lighting body with brackets vertically.*

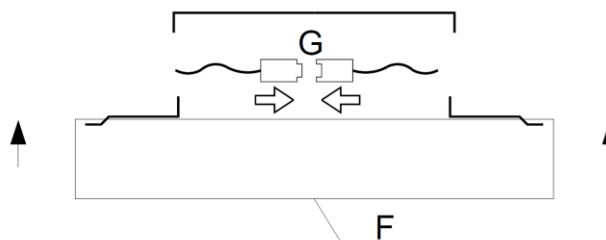

6. Far passare il cavo elettrico (E) attraverso il foro ed eseguire i collegamenti elettrici inserendo i cavi di alimentazione nella morsettiera in dotazione.

6. *Pass through the hole the electrical cable (E) and perform the electrical connections inserting the feeding cables into the provided terminal block.*

7. Avvicinare la lampada (F) al coperchio e collegare nuovamente i due connettori (G).

7. *Approach the luminaire (F) to the cover and reconnecting the two connectors (G).*

8. Fissare nuovamente le viti laterali (A) al coperchio, per bloccare la lampada.

8. *Fix the sides screws (A) to the cover to block the luminaire.*

9. Ricollegare l'alimentazione elettrica generale.

8. *Reconnect the general power supply.*
